

Aspiring Software Engineer

WORK EXPERIENCE

All American Lawn Care and Mulch More - Software Engineer

January 2026 – present

<https://allamericanlawnandmulch.com/index.html>

Built a beautiful website in HTML, CSS, and JS to connect future customers with the owners of this locally owned, small business.

PROJECTS

Pinball Game | Java

<https://github.com/Korbanzo/PinballGame>

- Developed a custom physics engine from scratch to simulate realistic ball movement and collision detection

Sea of Thieves Cooking Timer | JavaScript, HTML, CSS

<https://github.com/Korbanzo/Sea-of-Thieves-Cooking-Timer>

- Simple web-based utility tool for gamers to optimize cooking times.

NoClip Mod for Geometry Dash | C++, CMake, Geode

<https://github.com/Korbanzo/NoClip>

- Built mod using Geode framework, demonstrating ability to work within existing codebases.
